LOCAL WHOLESALE TRADE

A RATHER QUIET DAY IN ALL LINES!

Steadiness of Quotations the Leading Characteristic of Trade-Outlook for the Future Good.

Business yesterday was of moderate volume. The traveling men who came in on Saturday generally brought liberal onders, but there were not many merchants here to purchase by personal selection. Prices maintain the strong, steady tone that has characterized them for weeks past. Not a figure is changed in any line of staples, nor does any change seem impending, which must be regarded as a most favorable and

Country produce is still in rather limited supply-barely sufficient to meet daily requirements. Fruits and vegetables are offered freely, but prices hold up well. Jobbers in all lines say there is promise

of a good, steady business for some time to promptly made.

The Local Grain Market.

There is a better tone in the local grain market, and quotations for all cereals are the average for the past week. But little wheat is arriving. There is a continued strong demand for hay, but receipts are very small. The secretary of the Board of Trade furnishes the following quotations: Wheat steady; No. 2 red, 80c, track; No. 2 red, 80c on milling freight; No. 3 red, 77c; wagon wheat, 80c. ANOTHER DAY OF PERSISTENT THOUGH NOT URGENT SELLING.

United States Steel Securities-Money Rates Slightly Harder.

NEW YORK, Sept. 28 .- Another day's liquidation in the stock market kept apprehension alive, and was as much without specific explanation as that which has gone before. The liquidation was mostly in small amounts and came from all quarters. There was a considerable accumulation of these selling orders over Sunday, and there seemed to be a good deal of selling out by commission houses whose notifications to customers for additional margin had been ignored. All the foreign centers which hold any appreciable quantity of American securities also figured in the selling. All news of a favorable tenor was ignored and the demand was practically paralyzed. Except for occasional buying by uncovered shorts there was no demand distinguishable. The buyer who forms the complement for every seller seemed to wait for stocks to be offered to him and made no bid. There was a considerable amount of this sort of buying, which was traced with confidence to some of the largest banking interests, who satisfied themselves with this measure of support for the market. It was quite ineffective in preventing the sharp downward course of prices, although it may have prevented a demoralization, which was feared. All three United States Steel securities lowered their record prices by wide margins, the common touching 15, the preferred 59%, and the bonds 67%. The pressure on the last named was especially urgent and vigorous. The only attempt to explain this selling was that it came from that part of the membership of the syndicate underwriting the stock con-version plan, which desired to avoid the terms of the extension of the syndicate. The local traction stocks were another center of weakness, led by Metropolitan Street-railway, which fell to within a shade of par. This weakness was variously exof par. This weakness was variously ex-plained as due to the liquidation forced by bills, 3 per cent.; three months bills, 3%. overextension in other quarters and by unfavorable internal developments. Part of the selling in this stock was said to come mous seller of Pennsylvania. The pressure on Pennsylvania carried it down 414 at the last and was the factor in unsettling the close. Previous to this slump in Pennsylvania there had been quite an effective rally all around, due to the relief felt by the apparent cessation of the urgent liquidation in the United States Steel issues. Amalgamated Copper was another stock which was severely handled, and it was suspected that the abandonment of a plan

for an upward campaign by a pool was the cause of this selling. The news of the day was not an influence. A batch of favorable railroad net earnings for August was ignored. Money rates hardened both on call and on time, but gave no indication of stringency in any case. The close was active and irregular. Bonds were weak, in sympathy with stocks. Total sales, at par value, were \$5,055,000. United States twos declined 2% per cent., and the threes and fours 1/2 per cent. on the last call. WHEAT GOES OFF 5-8C AND CORNYA MINOR FRACTION.

Onts Are Down.3-4c at the Close-Provisions Show Mixed Changes, Pork Being Decidedly Weak.

CHICAGO, Sept. 28.-Weakness in Wall street and heavy world's shipments depressed grains to-day. December wheat closed %c off, corn was down 40%c and oats showed a loss of %c. Provisions were irregular, closing from 20c lower to 221/2c higher. The demand for wheat was slack and con-

ditions at home and abroad were bearish. Northwestern and Southwestern markets were lower and with weak cables and large world's shipments, liberal increase passage and slack demand, considerable long wheat came out. December opened %@%c to %c lower at 76%@76%c to 76%c. Notwithstanding the bearish influences there was a momentary bulge immediately rafter on buying by scattered shorts, on which December went to 77%c. An easter feeling engendered by Wall street's weakness soon followed, however, local commission houses and pit traders selling freely and stop loss orders were reached on the NEW YORK .- Call money steady at 263 ensuing decline. December went back to 765 @763 c, steadying later on buying by elevator interests to 76%@77c, a net loss of %c at the close. Clearances of wheat and flour were equal to 550,500 bushels. Primary receipts were 1,167,200 bushels, against 1,971,400 last year. Minneapolis and Duluth reported receipts of 865 cars, which, with local receipts of 99 cars-one of contract grade-made a total of 964 cars, against 997 last week and 1,451 a year ago.

Corn responded readily to the bearish influences—the unsettled feeling in Wall street, fine weather and lower cables— December opening 1/2c to 1/3c lower at 45%c to 45%c. There was an improvement in the tone later on buying by short holders on good shipping demand and improving exthe tone later on buying by short holders on good shipping demand and improving experition was spirited and prices were maintained. Faulty scoureds were rather irregular. Slipes the session to 46c, the better feeling being were in keen demand. Cape of Good Hope and Kansas fields. The close was a shade off the top at 45%@46c, a net loss of 1/20%c.

The oats market was largely sympathetic and trade was mostly of a scalping nature.
The volume of business was light and trading lacked feature. The close showed December off %c at 36%c, after ranging between 37%@37%c and 36%c. Receipts were 269 cars.

The provision list was strong, with the exception of October pork, which showed a loss of 20c at \$11.75. Packers were the best buyers and offerings were light, with hog prices steady. Lard closed 22½c higher at \$7.75, and ribs were up 5c at \$9.25. Estimated receipts for to-morrow: Wheat, 80 cars; corn, 545; oats, 190; hogs,

116 6.50 1..... Hogs-Receipts, 1,500; shipments, 250. The receipts of hogs, although small, show a good imceipts of hogs, although small, show a good improvement over a week ago and a year ago. Practically all kinds were represented and the quality generally was fully equal to the average recently. The market opened with very fair competition between packers and shippers for the choice light grades, and they sold promptly at steady to strong primes compared with those current at the close of last week, but there were very few dealers that would admit there was any quotable advance. The competition for the heavier class was not strong, but the demand was equal to the supply and steady prices mand was equal to the supply and steady prismere realized. The supply was exhausted east opening prices, and it is probable that a larg number of good hogs could have found an or let at to-day's figures. Sales ranged from \$6.20 to \$6.37%, and the bulk of the supply sold at \$6.20 @6.35. Quotations: Good to choice medium to heavy 36.2066.35 Inferior to best pigs. Roughs and stags

-Representative Sales,-Sheep—Receipts, 100; shipments none. As usual at the beginning of the week, there was a very small supply of sheep and lambs to-day; in fact, there were not enough of any description to establish a range in prices. As usual under such circumstances, an accurate report of the market cannot be made based upon actual sales, but most dealers quoted the market steady and believed that a larger supply would have sold on that basis. At the close of last week selected lambs were selling at \$5.75, with good to choice kinds at \$5.25@5.50, and the very best lambs were bringing \$3.75, with good to choice kinds at \$5.26@5.50, and the very best lambs were bringing \$3.75, with good to choice kinds at \$5.26. Cure for Clyde Fitch. Clyde Fitch once told an interviewer that he is a man who cannot help writing plays; that he has tried all the remedies customary for this disorder-such as travel, s and churchgoing-but that not even the gold cure has had any effect upon him. A new remedy, however, has just been proposed for the American playwright by "Jaques" of the London Chronicle. After seeing "The Climbers"—who appear to have fallen rather flat in England—Jaques makes an impassioned plea to President Roosevelt to appoint Mr. Fitch as minister to Teheran or Peking. Such an experience, thinks or Peking. Such an experience, Jaques, might effect a core; doubt it.
